## Ronald J. Patrick, MD

*Board-certified Dermatologist*

Dr. Patrick received his medical degree from Georgetown University School of Medicine in Washington, DC. He performed a residency in dermatology at the University of South Florida in Tampa, where he also served as the Chief Resident.

He is a member of the American Academy of Dermatology, Hillsborough County Medical Association and the Florida Medical Association.

*Smooth and healthy-looking skin is more attainable than ever before thanks to a large variety of highly effective, non-invasive cosmetic treatments. Dr. Patrick is pleased to offer the latest options for patients who wish to rejuvenate their skin, reduce the appearance of fine lines and wrinkles, or correct scars or discoloration. These options include:*

- **Botox** – A simple, non-surgical treatment that smoothes out moderate to severe expression or frown lines around the eyes, between the eyebrows or forehead area. One 10-minute treatment can result in a remarkable improvement that can last up to 6 months.
- **Dermal fillers** - injectable substances that reduce fine lines and wrinkles, add volume and fullness to your skin, and restore a natural and youthful facial appearance. The fillers offered by Dr. Patrick include Radiesse and Juvederm, all safe, effective and convenient treatments that yield tremendous results in a short amount of time.
- **Glycolic Peels** – this non-abrasive facial peel gently exfoliates the skin, stimulates cell regeneration, and gives the skin a natural and fresh glow. This is a gentle, yet effective treatment for sunspots, acne scars, blemishes, fine lines and wrinkles.
- **Fraxel Laser Technology** – A revolutionary non-invasive technique used to dramatically improve the skin of the face, chest, arms and hands. Fraxel corrects years of sun damage and signs of aging with a minimal amount of recovery time.
