TIRED OF LOOKING TIRED?

INTRODUCING

Restylane[®]

EYELIGHT[™]

RESTYLANE[®] EYELIGHT HELPS TREAT TIRED-LOOKING EYES WITH RESULTS THAT LAST.

Restylane[®] Eyelight is the only undereye filler in the market developed with NASHA[®] Technology, which offers several benefits:

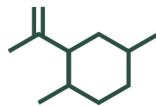

FILLS UNDEREYE SHADOWS

Helps fill in undereye shadows that make us look fatigued and tired

NONABSORBENT

Is resistant to water absorption

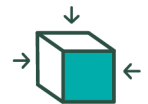

HYALURONIC ACID

Closely resembles the body's own hyaluronic acid (HA), with minimal crosslinking

MINIMAL SWELLING

Results in minimized swelling effects

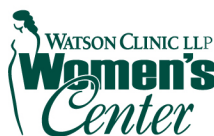

FIRM

Produces a firm gel ideal for helping to lessen undereye hollows

Watson Clinic Women's Center board-certified Plastic Surgeon Dr. Faeza Kazmier and physician assistant Chalsey Lockhart, PA can help you achieve a vibrant new look.
