Dr. Pranay C. Patel is pleased to offer the following discount during the month of February:

Save \$250 OFF the purchase of a PRP Hair Restoration package!

..... (series of four treatments)

PRP treatments involve a process where plasma is isolated and concentrated from a blood sample and injected into problematic areas in the scalp. This inspires the activation of long-dormant hair follicles, and impressive regrowth for patients who suffer from varying degrees of hair loss.

**Treatments must begin during the month of February to qualify for this discount.*
